

# DILUTION SOLUTION = CAVITY MONITORING SYSTEM

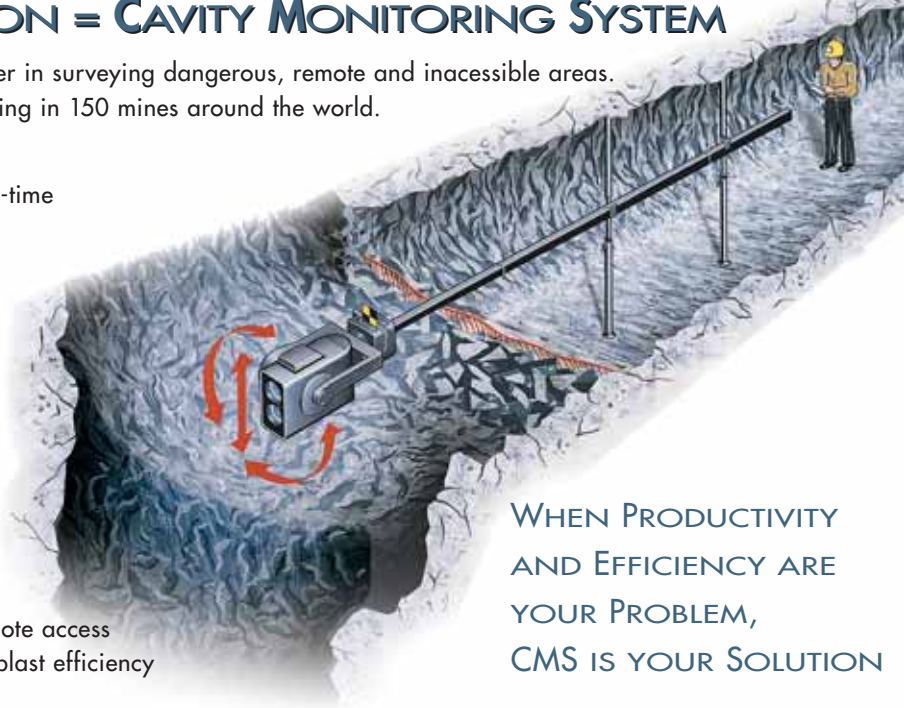

Optech is the global market leader in surveying dangerous, remote and inaccessible areas.  
Optech's CMS is currently operating in 150 mines around the world.

## New CMS features:

- Wireless, Windows-based, real-time graphical data
- 30% faster scan time
- Modular and lighter

## Use CMS to:

- Increase recovery and reduce dilution
- Survey ore passes, raises and shafts
- Accurately quantify shape and volume of underground mining excavations
- Improve safety by allowing remote access
- Investigate backfill failure and blast efficiency

WHEN PRODUCTIVITY  
AND EFFICIENCY ARE  
YOUR PROBLEM,  
CMS IS YOUR SOLUTION
